"Bringing people together to build homes, communities and hope, striving to create a world where everyone has a decent place to live."

The Brant and Taylor Hulsey Family

August 29, 2018

Dear Friends of the Shoals,

The Brant and Taylor Hulsey family, current residents of Greenhill, have sought the help of Shoals Habitat for Humanity. Three years ago, their son, Hayden, was severely injured in a car wreck and now the family requires a handicapped-accessible home.

After months of hard work, the Hulsey family has met all the requirements of Shoals Habitat for Humanity, including working hundreds of sweat equity hours and fulfilling our educational requirements. We have purchased a lot and will begin construction in September 2018.

Habitat will build this home and the family will purchase this home with a no-interest mortgage and secure affordable housing for their family for many years to come.

Shoals Habitat is ready to build for the Hulsey Family, but we need your help! Please be a part of lifelong change for this deserving family.

Here's how you can help.

- Be a Foundation Builder - up to \$100
- Be a Home Builder - \$101-\$250
- Be a Neighborhood Builder - \$251-\$500
- Be a Community Builder - More than \$501

Community Builders will be recognized on SHFH social media.

- Be a Habitat Sponsor Builder - More than \$5000

Sponsor Builders will be offered the opportunity to put their logo or name on the site sign, and will be repeatedly recognized in our social media.

Checks may be mailed directly to us at PO Box 3135, Florence AL 35630 or you may donate through our website at ShoalsHabitat.org. Shoals Habitat for Humanity is a charitable 501(c)(3) organization and all donations are tax deductible.

If you'd like information on how to volunteer for this build and other Shoals Habitat projects, visit our website at ShoalsHabitat.org.

With the help of community members like YOU, we can make affordable housing a long-term reality for the Hulsey family and others like them in the Shoals.

Sincerely,

LuEllen Redding,
 Executive Director

And the Shoals Habitat for Humanity Board of Directors
